DRIPTITE™

UNBREAKABLE KITCHEN SINK
BASE PROTECTORS

Installing Your New Driptide Slide n' Fit is Easy as 1, 2, 3

Measure the base of your kitchen cabinet.

Transfer your measurements to your
UNBREAKABLE Kitchen Sink Base Protector.

If your DRIPTITE doesn't fit from front to back, measure cabinet from front to back and then apply that measure to your DRIPTITE. Use a heavy duty pair of scissors, tin snips, or utility knife and a straight edge to mark and trim the pan to fit the size of your cabinet base board.

After measuring and cutting to fit your cabinet size, slightly tilt it, and slide it in! Make sure you slide the cabinet base protector under the plumbing pipes. Your home is now protected by DRIPTITE!

UNMATCHED UNBREAKABLE 10 YEAR WARRANTY!

If your Driptide Slide N' Fit Pan (part) fails because of a manufacturing defect within 10 years from the date of purchase, we will provide a new part at our option, without charge. Return the defective part directly back to the A/P Office (Driptide, 25422 Trabuco Rd., Suite 105-622, Lake Forest, CA 92630) with a copy of the "proof of purchase". If the part is defective, it will be exchanged. This warranty does not cover parts that are improperly installed, damaged, abused or used for other than the intended purpose. It does not include the cost of returning the part to the vendor from which it was purchased, the labor to remove, install or diagnose the failure, parts used in the commercial applications, and incidental or consequential damage caused by possible defects with the parts.

Disclaimer: This product is not intended to prevent serious flooding from the plumbing under sinks. It is designed to handle drips and leaks that occur with 'normal' sink usage.
